## Skip Loader

# EUROLIFT HK

## Skip loader

The Eurolift HK18S is the allrounder of the skip loaders, mounted on a 2 or 3-axle chassis, he is perfect for the town centre, parking garage and building lots.

The HK is the most flexible skip loader:

### Advantages

- Solid assembling with qualified personal
- 270° articulated arms
- Arms parallel to the plateau lowered
- It's not necessary to shortening the clutch
- Using of less high-quality inductive sensors

### Unit

- Lift and skip capacity 14 & 18 tons
- Front wall as cabin protection
- Combined support plate and role
- Used original lighting of the chassis
- Closed rear
